

KRIPSOL ONDINA SERIES

GRP Self-Priming Swimming Pool Pumps

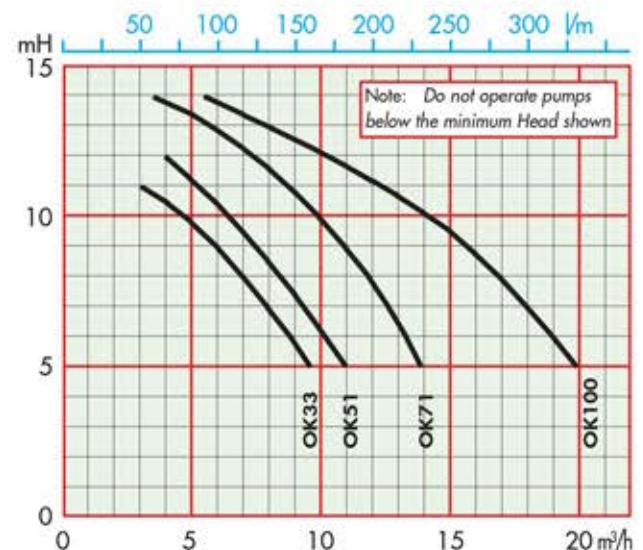

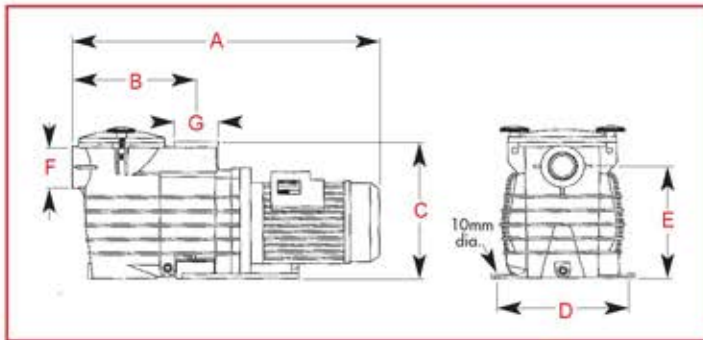

These self priming centrifugal swimming pool pumps feature injection moulded glass reinforced thermoplastic body and strainer, with Noryl impeller and stainless steel inserts and fixings. The pre-filter section has a drain plug, transparent polycarbonate screw-down lid with O-ring seal and injection moulded white filter basket.

Drip proof IP55 protection, Class F motor with top mounted capacitor/junction box.

400/3/50 versions of the Ondina Series are available on special order.

For higher Flow/Head models see separate data sheet covering the Kripsol Koral Series pumps.
